PRESENCE. WITHOUT SPECTACLE.

PRIVATE ARRANGEMENTS.

Before arrival. In your company.
A considered presence, wherever the occasion leads.

DA NANG / HO CHI MINH CITY / HANOI

A PERSONAL SERVICE / A DEFINED RESPONSIBILITY

YOUR WORLD. OUR ATTENTION.

VANTHREN is a two-person Black foreign-national team based in Da Nang. We are not Vietnamese operators. English is the working language, with partial Spanish support.

THE SERVICE

- Physical accompaniment, discreet entourage, authorized advance work and limited scheduled observation.
- Remote preparation is a separate desk-based service, with no attendance included.

THE PRINCIPLE

- Founder-led review. Agreed duties, realistic capacity and private introductions.
- Public faces remain private. Required legal identities and relevant qualifications remain accountable.

All campaign people, vehicles and properties are fictional concepts. Multiple pictured models do not imply more than two available operators.

BEFORE THE ARRIVAL.

Preparation is a service in its own right.

TWO WAYS TO PREPARE

PLAN REMOTELY. VERIFY ON SITE.

REMOTE PREPARATION

- Five independent fixed-scope planning offers below \$1,500.
- Work uses client-supplied information and public-source context, with assumptions and unresolved items labeled.
- No physical inspection, attendance, continuous monitoring or attended operator time is included.

ON-SITE ADVANCE

- An operator physically attends an authorized place or route context before your visit.
- The rate remains \$1,500 per operator-hour, or \$3,000 for two operators. Travel and other agreed costs are additional.
- Dates, access, observation questions and reporting limits are accepted in writing.

These are different scopes, not discounted versions of the same physical service. No discount applies to any arrangement.

REMOTE ONLY / FIXED SCOPE

ONE HOME BASE / A CONSIDERED JOURNEY

DA NANG. AND BEYOND.

Ho Chi Minh City and Hanoi are available for review by advance arrangement. We do not claim permanent offices or locally stationed teams in all three cities.

CLIENT-FUNDED ADDITIONAL COSTS

- Flights and other agreed intercity travel.
- Appropriate individual accommodation for assigned operators.
- Ground transport, fuel, parking, tolls, meals and approved assignment costs.
- Applicable taxes and authorized third-party charges.

WHAT THE WRITTEN BUDGET SEPARATES

- Scheduled labor: hours x operators x \$1,500.
- Travel/preparation/standby duty: identify which hours are separately reserved, without double-counting.
- Expense estimates, funding dates and any permitted variance approval.
- A purely remote scope does not create operator flight or hotel charges.

Example: one eight-hour day with two operators is \$24,000 labor, with an \$18,000 labor advance. The separately agreed expense budget and applicable taxes are additional.

ACT IV / PRIVATE ACCOUNTABILITY

PRIVATE ACCOUNTABILITY.

A clear brief. A defined team. A shared plan.

Fictional campaign imagery. Grouped models illustrate presentation, not staffing. Confirmed team: two.

PUBLIC FACES PRIVATE / PRIVATE INTRODUCTIONS

YOUR PEOPLE. YOUR ARRANGEMENT.

Authorized clients review deliberately released assignment information through individual access. Campaign models never substitute for actual personnel introductions.

PERSONNEL INTRODUCTION

- Approved professional/ordinary photos, role, background and relevant experience where supplied and consented.
- Optional social links and personal context only when accurate, approved and appropriate for release.
- Dossier review and exact-version acknowledgements; no fabricated credentials or agency history.

PRIVATE COORDINATION

- Released briefs, itinerary, contacts and readiness questions.
- Budgets, invoices, expense review, change requests and client planning decisions.
- Private conversation, agreed handoff and deliberately released service reports.

Device artwork is a concept, not a live client screenshot. Client onboarding remains closed pending final setup. Saved private copies cannot be remotely recalled.

SEVEN DAYS / BEFORE EARLIEST REQUIRED WORK

BEGIN WITH THE CONTEXT.

THE FIRST CONVERSATION

- Who is requesting, who will receive the service, and who is paying?
- Which cities, dates, party size and service type are requested?
- Is the request remote preparation, attended service, advance work or a clearly authorized observation task?
- What authority, venue access or third-party consent is required?

REVIEW AND ACCEPTANCE

- The founder handles client vetting and reviews purpose, fit, capacity and required operating conditions.
- A quote separates scope, personnel, duty hours, deliverables, expenses and exclusions.
- Identity or other sensitive supporting information is requested only through the designated private process.
- An inquiry or a sent brief does not confirm acceptance or reserve attendance.

Do not send sensitive identity documents or detailed live whereabouts through public social comments or an unverified contact.

THE WORKFLOW / REMOTE AND ATTENDED SCOPES

DEFINE. PREPARE. DELIVER.

01

Scope and founder review

Confirm service fit, complete inputs, permissions, capacity and the intended delivery/duty dates.

02

Agreement and funding

Confirm the written scope and settlement conditions. A strict 75% advance applies after lawful acceptance. Approved additional costs are funded separately.

03

Preparation and introduction

Produce the agreed remote output or complete accepted advance work. Release actual personnel introductions only to authorized recipients.

04

The agreed service

Remote: deliver the dated planning output and included review. Attended: work within the agreed duty window and report changes through the handler.

05

Handover and close-out

Record the end of service, agreed changes, expense acknowledgements and any released report. An acknowledged claim or invoice status is not itself payment settlement.

CLARITY IS PART OF THE SERVICE

THE QUESTIONS. ANSWERED.

Can we buy physical recon for less than \$1,500?

No. The sub-\$1,500 collection is remote preparation only. Physical advance uses the unchanged \$1,500 per operator-hour rate, with additional costs separately agreed.

Does entourage or casual clothing cost less?

No. Presentation changes; the operator-hour rate does not. No discounts apply.

Can we book immediately or request continuous coverage?

No immediate-start promise is made. At least seven days advance is required. Daily and weekly packages reserve scheduled hours, not 24/7 attendance.

Does a remote plan guarantee venue access or safe travel?

No. Public and supplied information is dated, assumptions are labeled and unresolved items require confirmation. There is no physical inspection unless separately contracted.

Are vehicle hire, flights, rooms and food included?

No. Agreed travel, accommodation, transport, meals, approved third-party costs and applicable taxes are additional.

Can the private desk replace direct service acceptance?

No. A dashboard, profile, message or invoice is not a confirmed booking or evidence of settled funds. The written agreement controls.

PLANNING EDITION / NOT A BOOKING CONFIRMATION

CLEAR SCOPE. CLEAR TERMS.

MINIMUM ADVANCE

At least seven days before the earliest required work, travel or deployment. Remote delivery dates are agreed after complete inputs and founder acceptance; there is no instant-delivery or guaranteed turnaround promise.

ADVANCE AND BALANCE

A strict 75% advance is required to secure an accepted scope. Remaining balance deadlines, expenses, tax, cancellation, postponement and any refundable/nonrefundable treatment are specified in the controlling agreement. No blanket nonrefundable claim is made here.

PAYMENT AND RECEIPT CONFIRMATION

Rates are in USD. Payments are by cryptocurrency or bank wire, using instructions shared through an agreed private channel. The founder verifies actual receipt and records the invoice credit manually. The private portal has no bank or wallet connection. No payment details are printed here.

OPERATING CONDITIONS

Commercial availability requires the appropriate business, personnel, insurance, transport and contracting arrangements. Physical access, driving/riding qualifications and venue permissions are verified for the actual assignment. No military, royal, diplomatic or intelligence affiliation is claimed.

SERVICE AND INFORMATION BOUNDARIES

No cybersecurity service, weapons service, 24/7 static surveillance, unauthorized following or recording, sexual service, guaranteed safety or government authority is offered. Actual staffing is two; imagery is fictional. Unaccepted inquiries follow the 30-day deletion policy; accepted records follow the applicable reviewed retention terms.
